1. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.
2. Applicant's arguments filed 12/08/03 have been fully considered but they are not persuasive. See the explanations below.
3. Claims 43-58 are rejected under 35 U.S.C. 103(a) as being unpatentable over WO 97/39738.

As indicated in the previous Office Action, the cited prior art discloses a sustained release ionic conjugate which contains a free carboxyl group-containing biodegradable polymer and a free amino group-containing drug which are ionically bonded to each other. Patentees teach that the polymer may be one derived from ϵ -caprolic and glycolic acids, and further teach that the polymer may further contain tartaric acid units. See pages 1, 2, 5, and claims 5-9 of the cited prior art. As indicated previously, the claims would have been obvious based on the disclosures and teachings of the cited prior art as explained supra.

4. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
